- mssql - Skillful
- Visual Studio - Skillful
- Git - Skillful
- Object-Oriented Programming - Skillful

PROJECTS

Online marketplace Web API

Developed a comprehensive Web API for an online marketplace application, designed to support both client-side and seller-side interactions. The API handles various functionalities such as product listings, user management, order processing, and payment integration.

Online Maket place Frontend website

Designed and developed the front-end interface for an online marketplace, focusing on user interaction and experience. The website provides a user-friendly platform for browsing products, managing user accounts, and processing orders.

Hotel management APi

Developed a Web API for a hotel management system, designed to streamline and automate various hotel operations such as booking management, room availability, guest check-in/check-out, and billing.

Realtime analytics website

Developed a real-time analytics dashboard to provide instant insights and data visualization for enhanced decision-making
